WE'RE ALL ABOUT FABRIC
KNITTED FABRIC

“

IT IS IMPORTANT TO BUY THE LATEST TECHNOLOGY AND BUILD LARGE FACILITIES, BUT WHAT IS MORE IMPORTANT IS HUMAN VALUE.

TEAMING UP WITH EXPERTS, RELIABLE AND GOOD PEOPLE THAT'S WHERE WE FOCUS ON.

WE WILL CONTINUE TO INVEST IN PEOPLE.

”

Ismail Euliya

CHAIRMAN

WE'RE ALL ABOUT FABRIC KNITTED FABRIC

From the early 2000s until today, our sole focus and main expertise has been knitted fabric. In 2015, we established Isev with knitted fabric experts by combining our strength in the knitted fabric sector. In the following years, we have become one of Turkey's leading knitted fabric manufacturers and exporters by continuously increasing our production and market share.

ISEV IS GROWING

In 2022, we established a considerable market network worldwide. In this period, we accelerated our investments and in the same year, we established one of Turkey's most modern knitted fabric factory in Kahramanmaraş. By further increasing customer satisfaction with the fabrics we produce in our own factory, we have become one of the fastest growing companies in the knitted fabric sector in Turkey.

INTEGRATED POWER WITH DYEHOUSE INVESTMENT

In 2023, a new era started at Isev. From yarn to fabric, the entire production process is now under Isev quality assurance. We further reinforced our quality with our new dyehouse investment. In our dyehouse, where the colours are worked with the automatic pipetting unit in our laboratory, we carry out the bleaching, dyeing and special finishing processes of circular knitted fabrics in tube and open width form that we produce ourselves and provide better quality and faster service to our customers.

Isev means quality, service, speed and competitiveness.

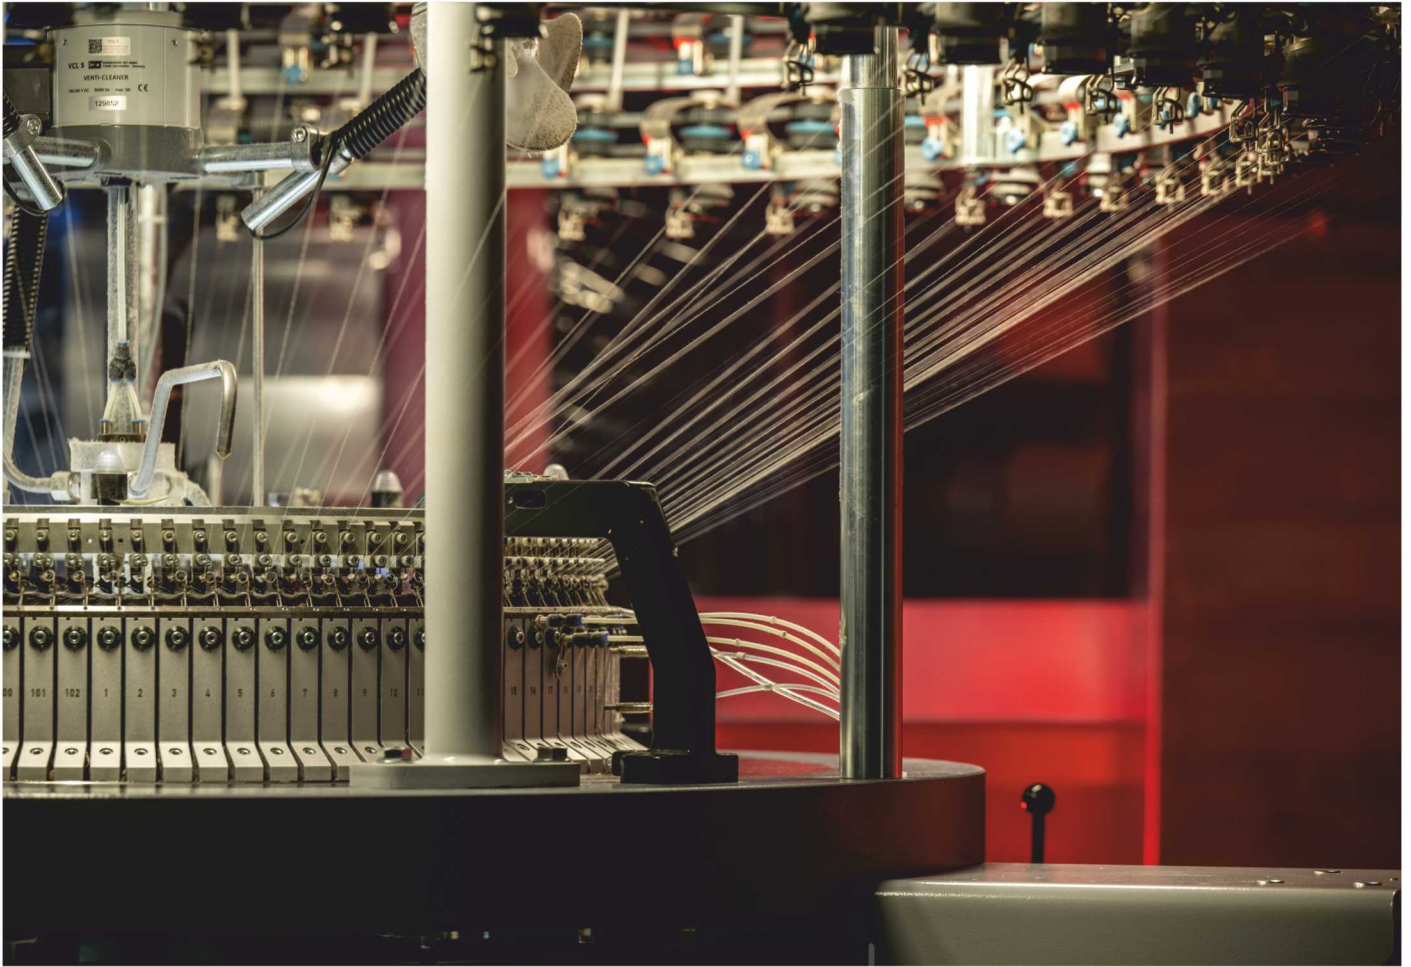

A WORLD COMPANY

We carry out all our production processes in Kahramanmaraş, the favourite city of the textile industry. We market the fabrics through our headquarters in Kahramanmaraş, our marketing office in Istanbul and our agencies in many parts of the world. With our operations in 25 countries, we bring together a knitted fabric supply chain with the world.

At Isev, it is essential to be a world person and create value for the world.

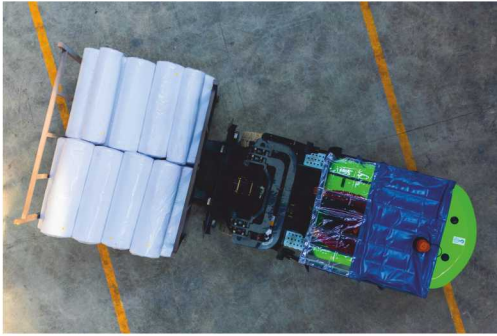

ENGINE OF FABRIC EXPORTS

Being a world company is in our DNA. We reap the fruits of this from the export records we break every year. We have been awarded every year since 2016 in the list of export champions organised annually by the Istanbul Textile and Raw Materials Exporters' Association and we increase our motivation even more with these awards.

WE'LL CONTINUE TO INCREASE THE COMPETITIVENESS OF OUR CUSTOMERS

Our founding mission is entirely based on this. With our flexible and smart production model, we try to meet every amount of demand with the perfect product and the fastest delivery target. We also offer a wide collection of fabrics in different types and blends. Isev, who does not compete but creates competition; will continue its customer-oriented production culture.

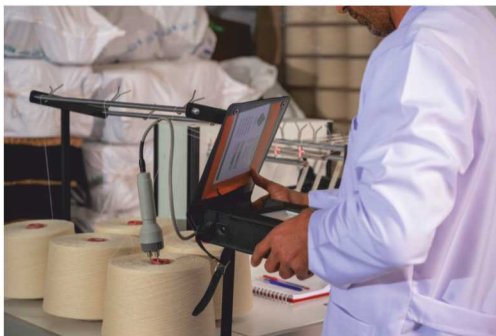

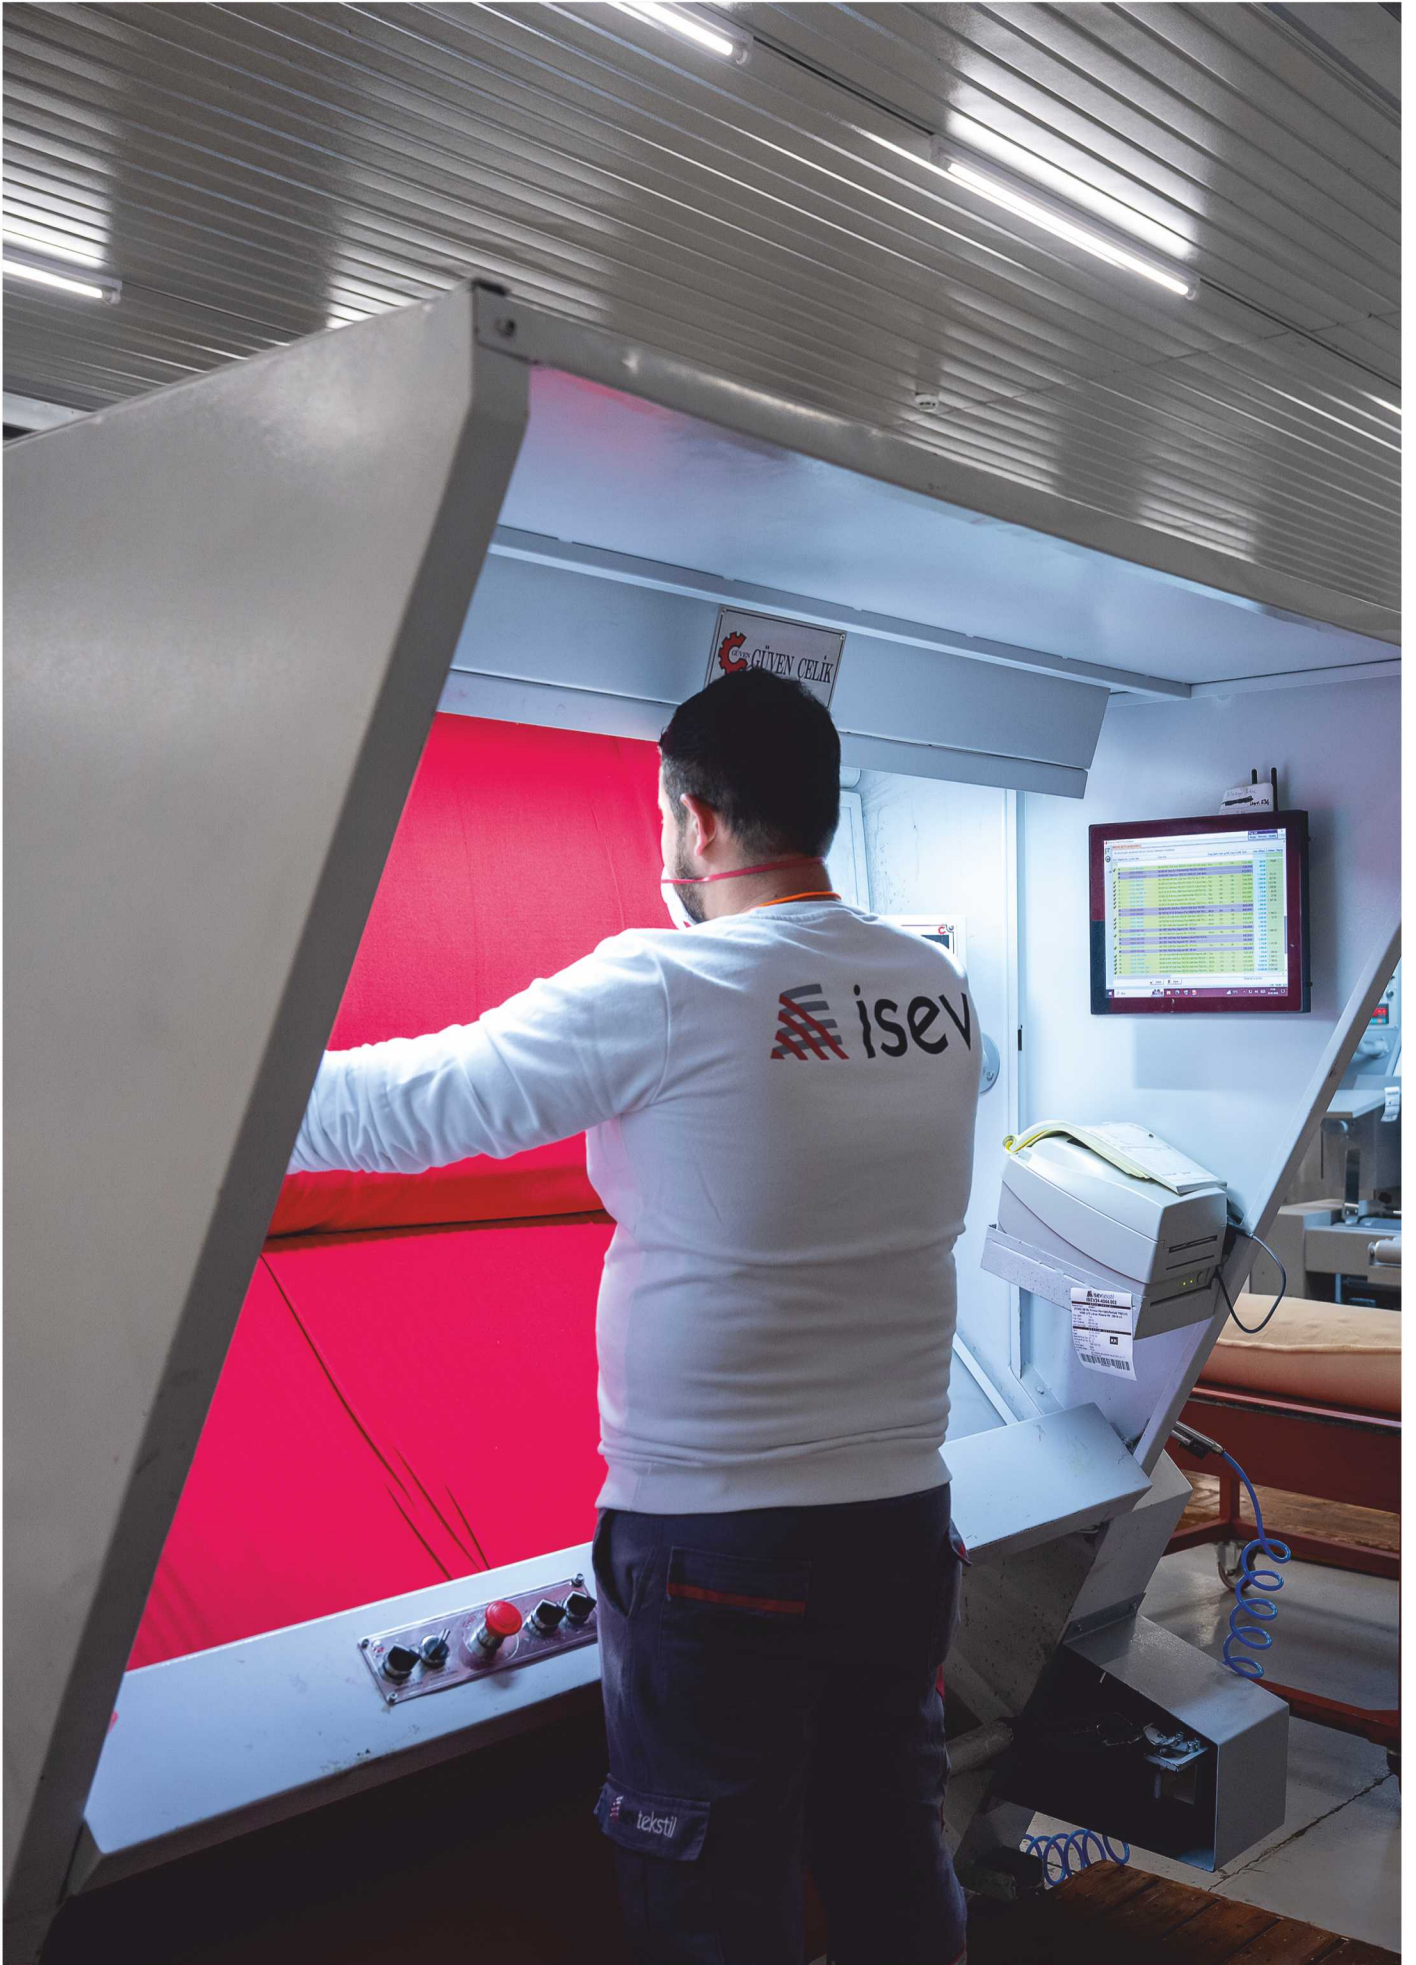

ISEV
2024-2025
STRATEGIC
STEPS

REAL QUALITY FROM PLANNING TO SHIPMENT

Planning engineering is an Isev model. We make a difference in fiber selection, especially cotton, yarn production, raw knitted fabric production processes, bleaching, dyeing and special finishing processes and quality control processes. The basis of this difference is our field engineers.

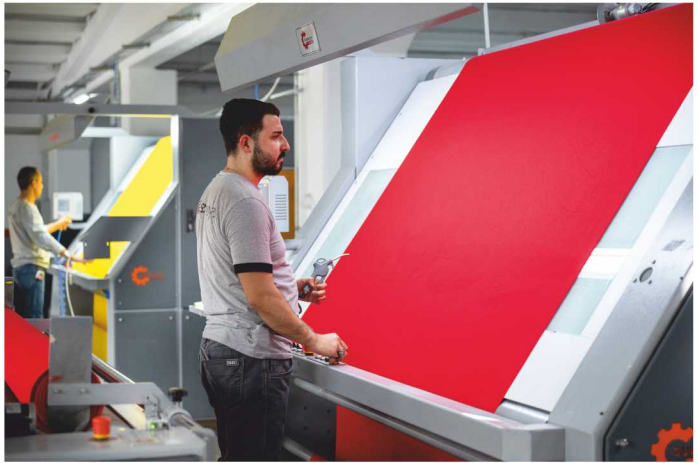

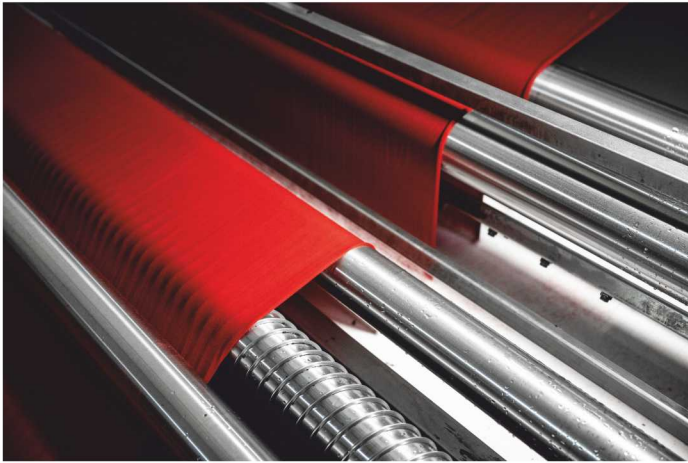

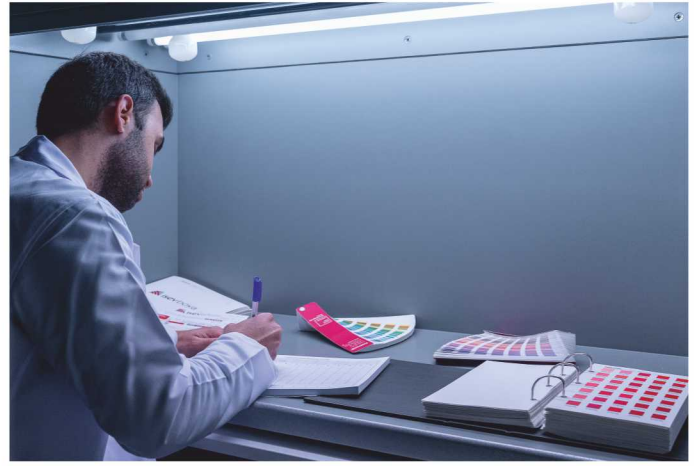

THE STORY OF RED

SUSTAINABILITY IN EVERY ASPECT OF LIFE

We created value and awareness in this field with our regenerated fabric collection. We care about the zero carbon footprint target. Our main agenda is the use of renewable energy resources, recycling of waste and production with less water use. The goal is to leave a more liveable world heritage to future generations.

Human health and environmental awareness are the main agenda items in Isev's 2024-2025 strategic plan.

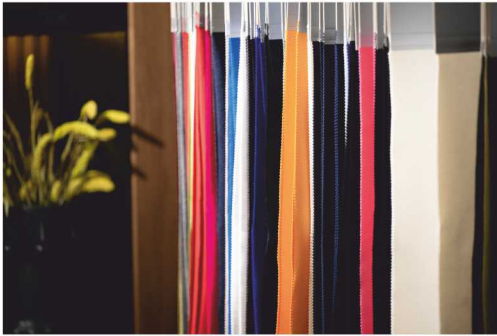

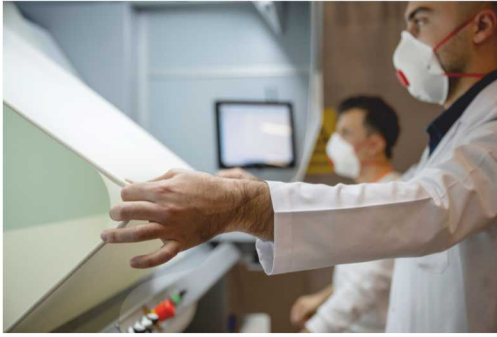

**WE SUPPORT
SUSTAINABLE COTTON**

ISEV KNITTED FABRICS COLLECTION

Our raw and dyed knitted fabrics, which we produce with a daily capacity of 35 tons, are produced with yarns that are quality tested according to the desired fabric properties. Our knitted fabric factory, where each machine is specially purified and air conditioned, produces in full integration with our dyehouse within the Isev Digital Chain system.

Fabric Types

Single Jersey, Two Fleece, Three Fleece, Rib, 2x1 Rib, Interlock, Single Pique, Double Pique, American Pique, Waffle, Ottoman, Thessaloniki, Double Face, Punto Milano, Punto di Roma, Crepe, Dual Pique, Honeycomb Fabrics

*We produce elastane, full elastane, diagonal, open width, tube, yarn dyed and reported derivatives of all our fabric types.

Fabric Compositions

100% Cotton, Cotton/Elastane, Cotton/Modal/Elastane, Cotton/Polyester, Cotton/Modal, 100% Organic Cotton, Regenerated Cotton, Viscose, Tencel, Modal, Micromodal, Polyester, Bamboo, Melange and Blends

365 DAYS 24 HOURS

WORD OF ISEV

“

We value people and believe that people are the source of all kinds of success. Our ever-growing market share is based on the relationships we have established with trust and respect, the culture of listening, standing behind our word and being reliable for both our employees and customers with sustainable quality.

It is in our character to manage quality in all production processes starting from raw material input and to ship on time with the goal of defect-free products.

We will continue to win the hearts of the fabric industry with our responsible character for people, the environment and the future, and our endeavour to create value for the whole world.

”

Isev Team

OUR STORY

We are Isev team.

For more than 20 years,
our job is fabric.
Knitted fabric.

We have established one of the
most beautiful knitted fabric
mills of Turkey.
We have added vision to every
stage.
We have done it with knowledge,
skill and labour.

It has turned out very beautiful.

This is Isev!

Perfect planning, flawless
production, the widest choice of
products and a strong
organisation capable of
responding to every demand.

We've also established one of the finest fabric dyehouses of Turkey.

We promise much more than a dye house with our service quality, long years of experience and technology. The machines work non-stop.

Because our team is very strong, very happy and very passionate. Being fast and reliable! Standing behind your word!

We produce for countless garment manufacturers and fashion brands in 25 countries around the world.

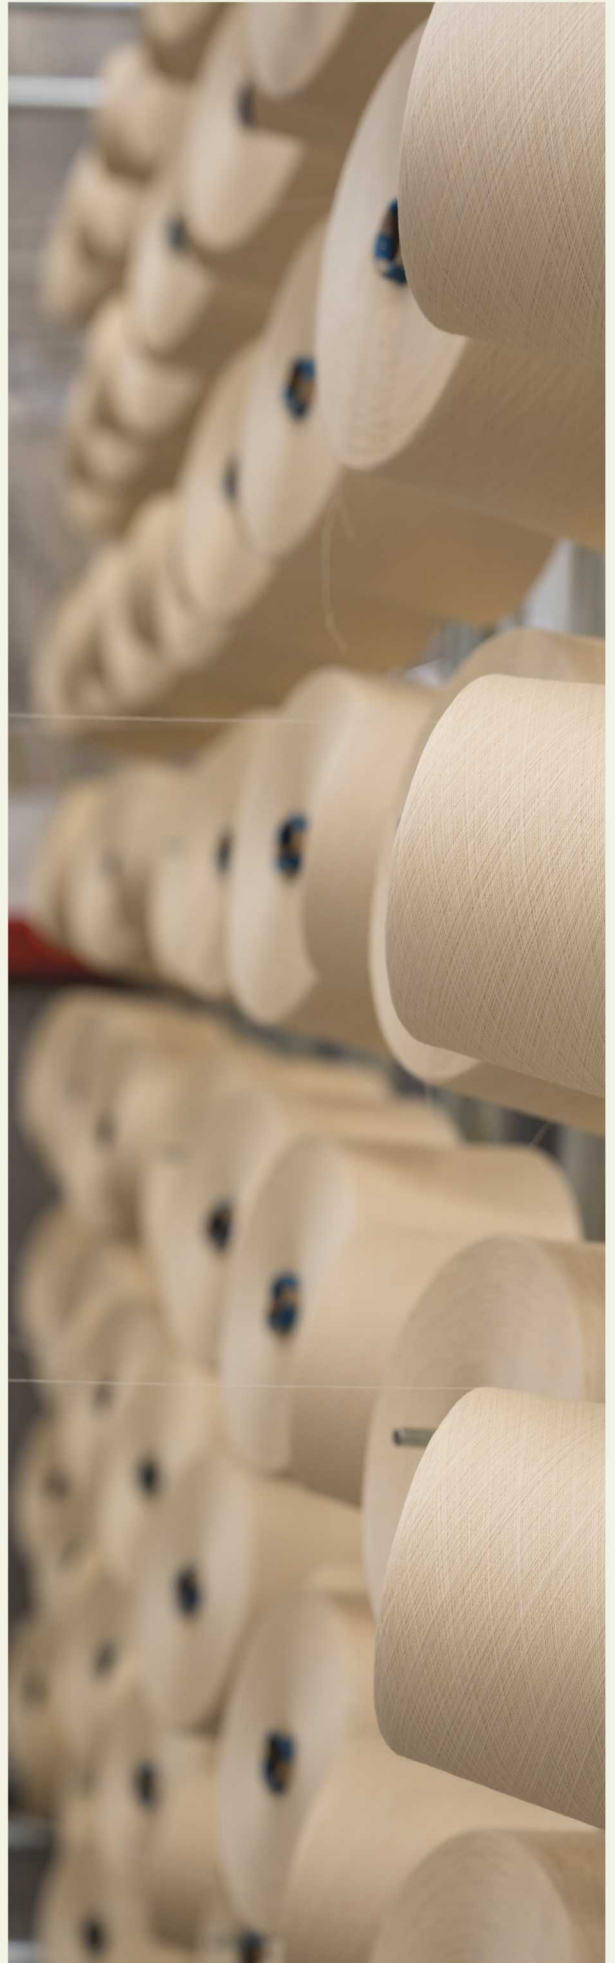

In this journey that starts with yarn and extends to the finished fabric, we are developing more and more every day.

With respect for all humanity and nature, we continue to produce with the awareness of responsible production, protecting the future.

Our priority is sustainable production! Quality production!

Target zero carbon footprint and reduced environmental impact.
